

BUNNY 140 & 76

Budget cold laminator...

- Single side lamination
- Simultaneous single side lamination and adhesive mounting
- Application tape
- Colour background using colour vinyl
- Mounting on to boards up to 50 mm (2") thick

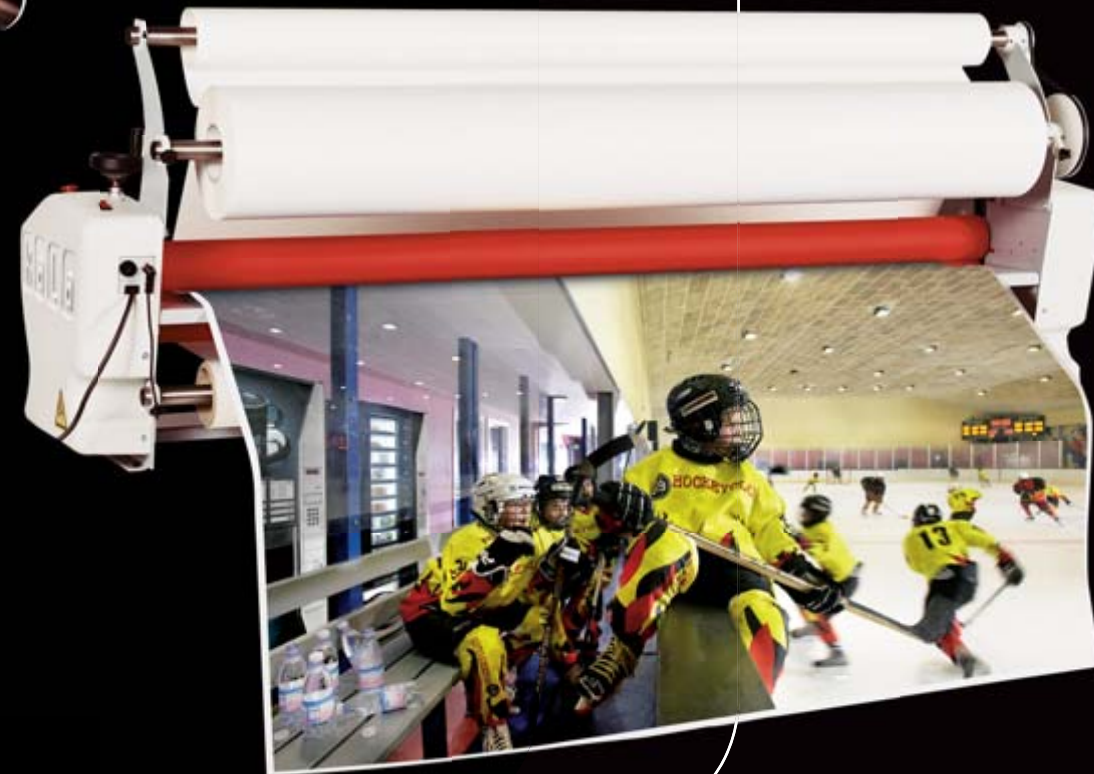

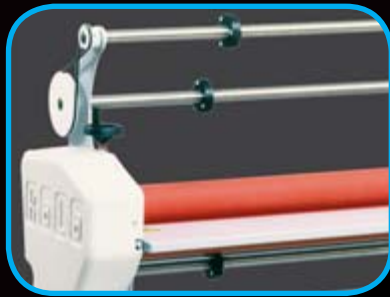

Available in 2 widths, 76cm (30") and 140cm (55").

Designed to be installed on a table, this laminator can also be fitted on an optional stand with casters.

Cost saving, the Bunny laminator can help you save time and money on finishing jobs done manually in your workshop and provide you with highly professional result.

A perfect complement to match your printer or cutting plotter up to 1,40 m (55") width. They will fulfil all sign-maker, photographer, printer requirement.

The film reel holder comes with two brackets with grips in order to accommodate any film on a 76mm (3") core diameter available on the market, even in a 100m length (Maximum film reel diameter 21cm).

The lamination pressure is preset on line in the factory for perfect lamination results, even upon the first use.

The location of the film reel holder on the machine is easy thanks to a different colour mark for each holder.

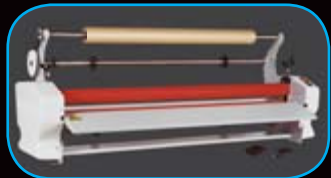

Speed selection, emergency stop, safety reset, forward & rewind.

The lifting of the roller is done manually using wheels on each side of the machine, allowing adjustable pressure

The operator drives the machine with a foot switch and therefore works under total safety.

Loading of the film reels is facilitated with the sliding table.

The rollers are driven with an electrical motor with 2 speed selection on the control panel.
